

**Your reliable partner
for project logistics
and global
transport.**

Our team - Here for you

As an owner-managed company, we at HBH Logistics stand for reliability, quality and commitment.

- Personalised support: Providing you with personalised advice is at the heart of the service our staff offer.
- Customised solutions: Years of experience in the field of heavy-lift and oversized freight forwarding to meet your global requirements.
- Comprehensive service: Rail, road, air and sea transport, including loading, assembly and appropriate packaging.
- Worldwide door-to-door: Thanks to our international network, we operate quickly, reliably and precisely in line with your needs.

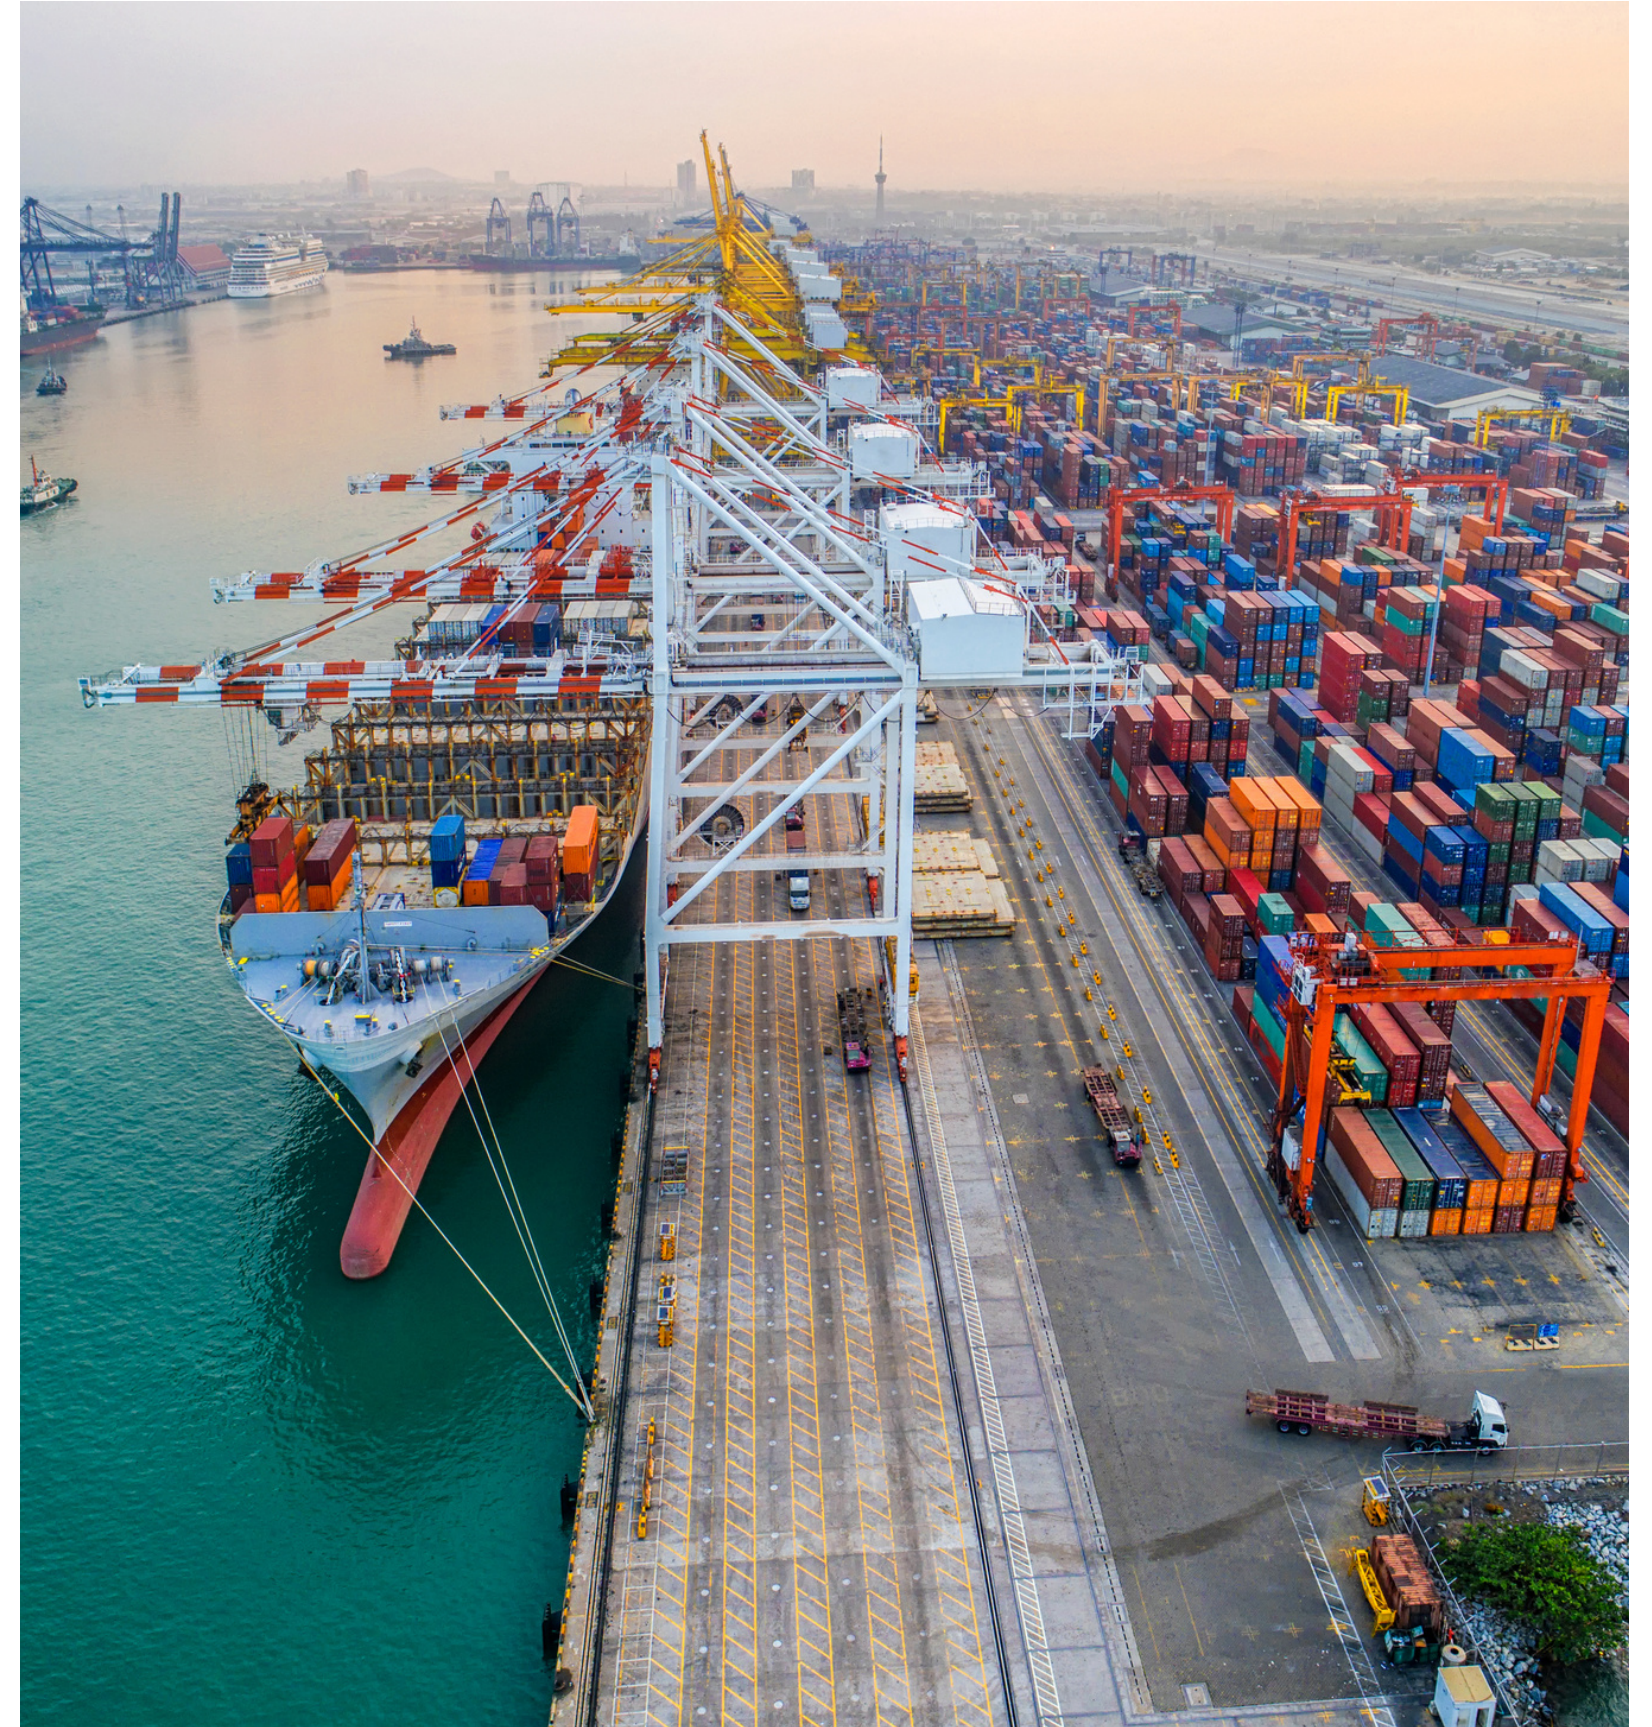

About HBH Logistics

We handle what is too big, too heavy or too complex for standard solutions.

Many years of expertise: From our headquarters in Stuhr, we manage complex logistics projects worldwide and are a well-established partner in the industry.

Global network: We load and transport your sensitive machinery, plant components and industrial goods safely across every continent.

Everything from a single source: A project transport requires detailed planning. We provide bespoke, full-service solutions rather than standard ones.

Your projects in our hands

Focus on your projects: We offer you the full range of project logistics services, organised and delivered from a single source.

Project Management & Planning

- Project planning
- Transport route specification & on-site analysis
- Foundation laying & professional installation

Transport solutions

- Sea freight, air freight & land transport (including general cargo)
- Full or part charters and container transport
- Feeder transport by truck, rail & inland waterway vessel

Value-Added Services

- Export, import & customs clearance, including documentation
- Warehousing, order picking & consolidation
- Neutralisation & marking of cargo

Your land transport

Customised transport solutions tailored to your needs

- **Perfect preparation:** On-site consultation and the development of bespoke transport solutions.
- **Detailed route planning:** Extensive route surveys and feasibility studies.
- **Bureaucracy under control:** Obtaining all necessary permits and seamless customs clearance.
- **Safety on the road:** Professional escort of the consignment from collection to delivery.

Sea freight transport

We're in our element on the water.

Whether it's machinery accessories from New Zealand, filter components from the USA or compressors bound for the UAE – as experienced logistics experts, we handle the entire process for you, safely, efficiently and worldwide.

The right solution for every sea freight shipment

- LCL / FCL shipments
- Break bulk & OOG
- RoRo (Roll On Roll Off)
- Conventional shipping
- Partial and full charters
- Cross-trades

Air freight transport

Of course, we're also travelling by air.

Our global air freight promise:

- **Always there for you:** 365 days a year, round the clock. No mode of transport is faster than air freight.
- **Certified security:** Our partners are certified as Authorised Economic Operators, ensuring a secure supply chain throughout.
- **Even for 'unknown consignors':** Even if you are not a 'known consignor', we guarantee secure handling (checks via scanning or manual search without any delay).

Reliable loading supervision

Professional surveillance

Our experts oversee the entire loading process and ensure the highest safety standards are met

Minimising risks

Through comprehensive monitoring, we minimise damage during transit and ensure that everything runs smoothly.

International Standards

We employ best practices to meet global quality and safety requirements.

Efficiency & Transparency

Detailed documentation ensures that the loading process runs completely smoothly and is fully traceable.

Heavy-lift installation

Your project is in good hands with us.

Whether it's a turbine, a transformer or complex machinery: HBH Logistics offers you a comprehensive service – from simple delivery right through to professional installation and assembly at the destination.

Our service promise to you:

- **customised concepts:** Thanks to strong partnerships, we implement global delivery concepts tailored to your needs.
- **Extensive expertise:** We have in-depth experience in the power station and plant engineering sectors.
- **Everything from a single source:** Transport and assembly are seamlessly integrated – this saves time and minimises interfaces.

Industrial packaging

**Bespoke protection for
your industrial goods.**

Secure packaging is the foundation of any successful shipment. We ensure that your goods arrive worldwide undamaged and in accordance with regulations.

- **International standards:** Professional packaging in accordance with HPE standards and IPPC guidelines to ensure safe export.
- **Flexible service:** Collection of unpackaged goods, professional on-site packaging, and precise marking and labelling.
- **Value-added services:** Reliable consolidation, neutralisation and order picking of your consignments.
- **Professional stowage:** Secure stowage of containers, flat racks and MAFIs in strict accordance with applicable regulations.

Certified dangerous goods shipping

Maximum security for sensitive shipments.

Paints, coatings, gases or organic peroxides: the transport of dangerous goods requires absolute precision and uncompromising legal certainty. We'll take care of that for you.

- **Regulatory compliance:** Strict transport in accordance with the current ADR, IATA, RID and IMDG regulations by land, air and sea.
- **All-inclusive service package:** Our specially trained staff take care of all necessary transport permits and documentation.
- **Continuously updated securing plan:** We work strictly in accordance with our ADR 1.10-compliant securing plan, which is adapted to the latest regulations and practical experience.

Our storage solutions

13,000 m²

Indoor storage space

50 t

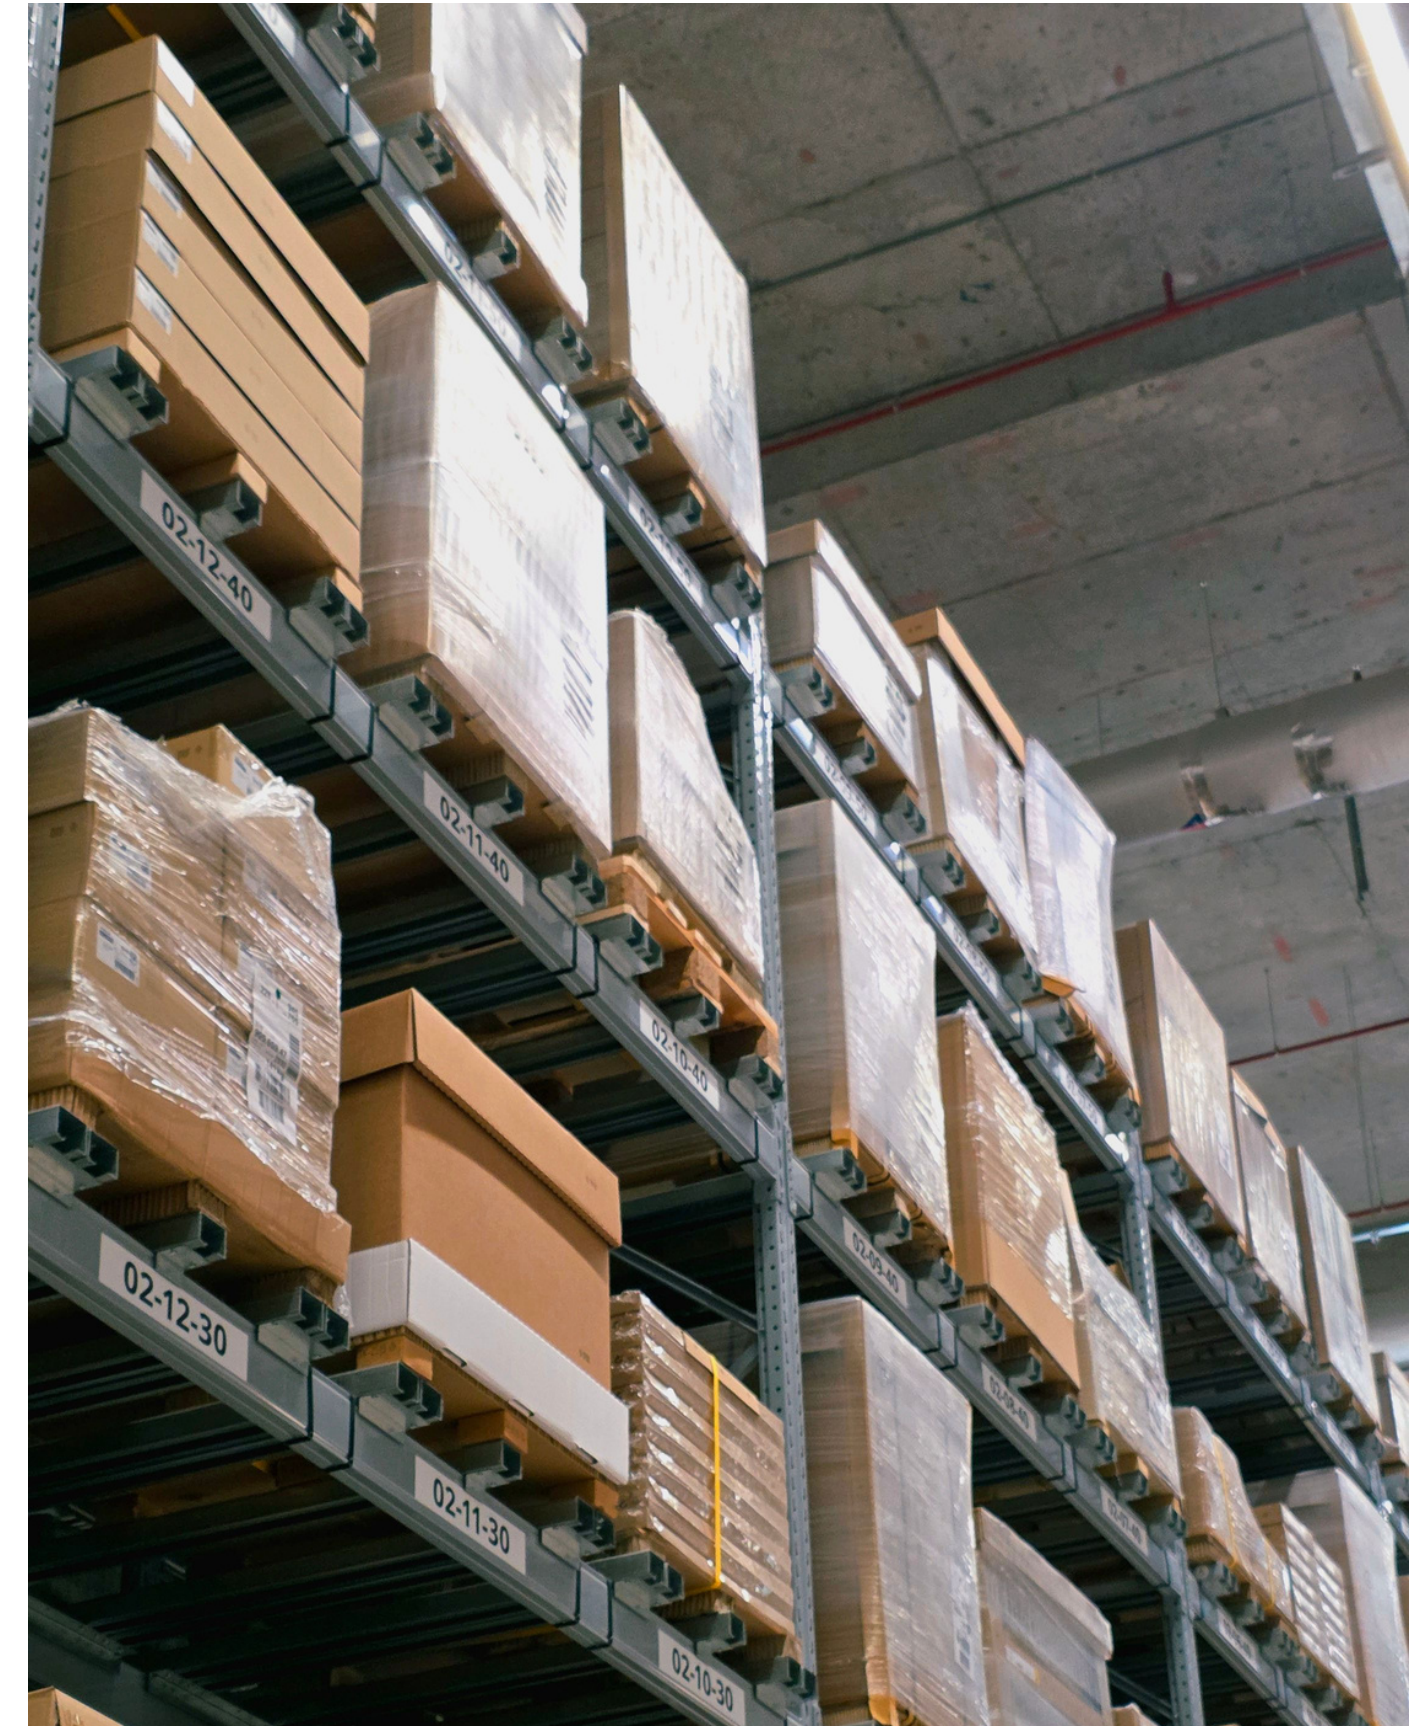

Warehouse capacity

Worldwide

at international seaports

More space for your growth.

If you are running out of space at your factory or at your supplier's premises, we can provide you with the space you need. Take advantage of our indoor and outdoor storage facilities, both domestically and at international seaports, in close collaboration with our global network of partners.

Customs clearance for imports and exports

Seamless processes across all borders

Customs regulations are complex, but essential for the global transport of goods. Our team takes care of all the necessary documentation and processing.

Our certified services:

- Atlas Export Clearance & NCTS Transit Procedure
- Individual and consolidated customs declarations
- Processing procedures & customs simplifications
- **AEOF-certified** (Authorised Economic Operator) & DEFRA ISO 9001:2015

HBH Canada Inc.

A global presence for the North American market.

- **Location:** Halifax, Canada
